Open Access Initiatives in India

Sukhdev Singh
sukhi@nic.in
The Big Question

YOU WRITE THE PAPERS,
YOU REVIEW THE PAPERS...

WHY SHOULD YOU PAY TO READ THEM?
The Bigger Question!
Why Open Access is even more relevant to India?

• Most reputed journals are published in developed countries (U.S / Europe) and are monopolized by few publishers

• Purchases are in foreign currency

• Even best indigenous research is published in foreign journals
India as consumer of research results would benefit from world wide Open Access Movement
What about visibility of Indian Research?

• Poor in academic publishing **trade**
• Poor visibility and **impact** of Indian Publication
• Authors prefer to publish in High Impact Publications, hence best of the **research is published outside India**
India as producer would benefit from worldwide exposure through Open Access publications.

Exposure $\rightarrow$ Impact

Open Access (OA) means free and online access to scholarly literature that can be freely disseminated further with proper author attribution. It brings down barriers to scientific communication by using Internet.
Open Access Publishing

• Open Access Journals perform peer review like their conventional counterparts and then make the approved contents freely available to the world.

Lists 3834 journals as on 27th January 2009

http://www.doaj.org/
Open Access Repositories

• Open Access Repositories allow authors / right holders to deposit their articles
• May allow preprints (pre-published manuscripts)
• Normally allow post-prints (peer-reviewed and published articles)
• Most reputed academic publishers allow authors to deposit some version of their articles in such repositories [http://romeo.eprints.org/stats.php]

Registry of Open Access Repositories (ROAR) had 1240 registered repositories as on 27th January 2009.

QSAR studies on structurally similar oxalyl aryl amino benzoic acid derivatives
Special Issues:

Proposals for Guest Editing special Issues in 2009 are invited.

We welcome proposals for publishing Conference specific special issues as a part of "Carbon - Science and Technology".

'News and Views' as a New Section from 2009:

A new section entitled 'News and Views' will be incorporated in 'Carbon - Science and Technology' journal from 2009, in addition to regular sections (i.e. Letters, Articles and Reviews). Very important research results (which might have published in detail in some other journals), new discoveries and inventions, products related to carbon area can form a part of this section. Contributions in this section are not limited to the above-mentioned topics, and rich in the area of carbon material.
Science and Technology of Sensors:

Special Issues:

Proposals for Guest Editing Special Issues in 2009 are invited.

We welcome proposals for publishing Conference specific special issues as a part of "Science and Technology of Sensors".
Highlights: Special Issue: Choice and Recognition in Local Democracy

- Mangrove Utilisation and Implications for Participatory Forest Management in South Africa
- Indigenous Common-property Systems in Honduras and Nicaragua
- Urban Environmentalism and Activists’ Networks in China
- Common-pool Resources of Varying Mobility in the Argentine Chaco
- Managing Social-ecological Change and Uncertainty in Dryland Northern Cameroon
- Bushmeat Trade in Republic of Congo
- The Policy of Reduction of Cattle Populations from Protected Areas

http://www.conservationandsociety.org/
Contemporary Issues and Ideas in Social Sciences

"Contemporary Issues and Ideas in Social Sciences" is a web journal open to all academics and researchers in economics and other social sciences. Contributions on any economic, political or social topic of contemporary relevance are welcome. The main purposes for which this journal has been started include encouragement of research on neglected but important problems, whether theoretical or empirical; and systematic and rigorous exposition of the full implications of some of the mainstream theories which have been propounded or have become important in the last few decades.

The reorganization of IJCSA website.

ISSN 0972-9038

The International Journal of Computer Science and Applications is a six-monthly open access journal that publishes articles which contribute new results in all areas of the computer science. It is an international journal intended for professionals and researchers in all fields of computer science, computational mathematics, computer engineering and scientific computing, for programmers, and software and hardware manufacturers. The journal also aims to publish new attempts in the form of special issues on emerging areas in computer science and applications.

The journal welcomes publications of high quality papers on theoretical developments and practical applications in computer science. Original research papers, state-of-the-art reviews, and high quality technical notes are invited for publications.

Originality
Prospective authors should note that only original and previously unpublished manuscripts will be considered. Furthermore, simultaneous submissions are not acceptable. Submission of a manuscript is interpreted as a statement of certification that no part of the manuscript is copyrighted by any other publication nor is under review by any other formal publication. It is the primary responsibility of the author to obtain proper permission for the use of any copyrighted materials in the manuscript, prior to the submission of the manuscript to IJCSA.

Read Submission Guidelines before sending the manuscript to IJCSA »

Differential dynamics and stability of lamin A rod domain mutants
Tripathi K, Muralikrishna B, Parnaik VK

Mutations in the human lamin A gene give rise to highly debilitating diseases termed laminopathies. Laminopathic cells harboring certain mutations in lamin A display aberrant nuclear morphology due to abnormal lamina assembly. To understand the molecular mechanisms involved in these processes, we have studied the dynamics and stability of...

JOURNAL OF BIOPESTICIDES

Journal of Biopesticides is a pre-reviewed half yearly journal issued in June and December, devoted to publication of research work on various aspects of plant protection with biological pesticides.

Core aim, objective and purpose of the Journal is interdisciplinary in approach bringing together scientists and researchers in the field of ecofreindly crop protection encompassing pests, diseases, weeds, rodents and molluscan pests management thus paving way for exchange of information and interaction between industry, researchers, academia, students, extension workers and the farmers.

Low Framingham Risk Score Despite High Prevalence of Metabolic Syndrome in
Dear Friends,

I welcome you to the website of “Journal of the Indian Academy of Geriatrics”. The journal is published on behalf of the Indian Academy of Geriatrics. The Academy has been formed to associate health professionals practicing the science and art of Geriatrics.

The journal publishes peer reviewed scientific articles. It is a modest beginning to provide a platform for exchanging information and research observations about health care of elderly. We hope it will help in development of much needed Geriatric services in our country. We invite your contributions and suggestions for the journal.

National Institute of Malaria Research on behalf of Indian Council of Medical Research (ICMR) publishes the Journal of Vector Borne Diseases. This Journal was earlier published as the Indian Journal of Malarialogy, a peer reviewed and open access biomedical journal in the field of vector borne diseases. This Journal was earlier published as the Indian Journal of Malarialogy. The Journal publishes review articles from eminent scientists, original research articles, short research communications, case reports of prime importance, letters to the editor in the field of vector borne diseases and their control. The Journal is published quarterly in the months of March, June, September and December in each calendar year. All correspondences regarding submission of manuscripts, subscription, etc. should be addressed to the Editor, Journal of Vector Borne Diseases, National Institute of Malaria Research (ICMR), sector 8, Dwarka, New Delhi—110077

The Journal of Vector Borne Diseases is indexed by PubMed, BIOSIS, Drugs and Pharmaceuticals Current Indian Titles, EMBASE/Excerpta Medica, Index Medicus, Indian Science Abstracts, Protozoological Abstracts, Quarterly Bibliography of Major Tropical Diseases, etc.

And a Special Mention
Indian Journal of Medical Informatics

Indian Journal of Medical Informatics (IJMI) is an Open Access, peer-reviewed, online journal adopting a broad definition of "medical informatics" and focusing on the applied aspects of computers to healthcare delivery. In the Indian Journal of Medical Informatics, all articles are accessible FREE of charge (as HTML files). However, PDF files are available only to IAMI members. The ISSN of the journal are 0973-0379 and 0973-9254 (Online). It has a PURL (Persistent Uniform Resource Locator) - http://purl.org/fulltext/ijmi/ that will always point to its active Online Site. The journal is listed in ICMJE - URM Journals List and IndexCopernicus. IJMI is also being archived at OpenMED@NIC.

Indian Journal of Medical Informatics has evolved to a peer reviewed, online-only and open access version. We intend to present a journal that is freely accessible to all readers with a quick turnaround time for manuscripts.

The Indian Journal of Medical Informatics will consider a wide range of submissions covering the theory, practice and outcomes of healthcare informatics with special emphasis on conditions similar to those prevailing in India. The scope of the journal is detailed in the Focus and Scope section. We encourage original research submissions but will not accept substandard articles. Peer review will be rigorous, but we do not intend to throw the baby down the drain. Authors are requested to read the Author Guidelines for Online Submissions thoroughly.

OpenMED@NIC is an open access archive for Medical and Allied Sciences. Here authors / owners can self-archive their scientific and technical documents. For this they need to register once in order to obtain a user id in OpenMED@NIC system. However no registration is required for searching the archive or viewing the documents.

OpenMED@NIC is a discipline based International Archive. It accepts [Revised policy - dated 28th March 2006] peer-reviewed documents having relevance to research in Medical and Allied Sciences including Bio-Medical, Medical Informatics, Dental, Nursing and Pharmaceutical Sciences. These could be peer-reviewed preprints, postprints (refereed journal paper) and accepted theses. In case of non-English documents, descriptive data [Author, Title, Source etc.], abstract and keywords must be in English. Submitted documents will be placed into the submission buffer and would become part of OpenMED@NIC archive on their acceptance.

The aim of OpenMED@NIC is to provide free service to academics, researchers, and students working in the area of Medical and Allied Sciences. We expect it to promote self-archiving and open access to papers / scholarly publications in these fields. Authors who wish to post papers to the Archive should first consult the Document Submission and Acceptance Policy. Inclusion in OpenMED@NIC Archive gives no assurance of any kind regarding the correctness or quality of the information / software. Users must read Disclaimer before using this site.

Open Knowledge Society

Bylaws

I. Name

i. The name of the Society shall be OPEN KNOWLEDGE SOCIETY (OKS)

ii. The Society is registered under the Travancore-Cochin Literary, Scientific and Charitable Societies Act of 1955.

II. Objectives

The Society shall assemble and discuss matters of public interest and mainly strive to achieve the objectives described below:-

- To promote actively the philosophy of open access and support organizations in establishing their institutional repositories and scholarly journal publishing
- To encourage a collaborative environment among the various open access initiatives and to act as a facilitator for commercial / governmental/academic writers and
Open Access Journal of Medicinal and Aromatic Plants

Welcome to Open Access Journal of Medicinal and Aromatic Plants (OAJMAP) the only FREE READ journal dedicated to the field of medicinal and aromatic plants. The Online Manuscript Submission to Publication and Tracking System uses the “Open Journal Systems.” It is managed and published by Medicinal and Aromatic Plants Association of India (MAPAI) located at National Research Centre for Medicinal and Aromatic Plants, Beniav, Anand 387310, Gujarat, India.
VOL 42, NO 1 (2008)

Some Other Initiatives
Physics

- Astrophysics (astro-ph new, recent, find)
  includes: Cosmology and Extra-Galactic Astrophysics; Earth and Planetary Astrophysics; Galactic Astrophysics; High Energy Astrophysical Phenomena; Instrumentation and Methods for Astrophysics; Solar and Stellar Astrophysics
- Condensed Matter (cond-mat new, recent, find)
  includes: Disordered Systems and Neural Networks; Materials Science; Mesoscopic Systems and Quantum Hall Effect; Other Condensed Matter; Soft Condensed Matter; Statistical Mechanics; Strongly Correlated Electrons; Superconductivity
- General Relativity and Quantum Cosmology (gr-qc new, recent, find)
- High Energy Physics - Experiment (hep-ex new, recent, find)
- High Energy Physics - Lattice (hep-lat new, recent, find)
- High Energy Physics - Phenomenology (hep-ph new, recent, find)
Vidyanidhi (Meaning 'Treasure of Knowledge' in Sanskrit) is India's premier Digital library initiative to facilitate the creation, archiving and accessing of doctoral theses. Vidyanidhi is an information infrastructure, a digital library, a portal of resources, tools and facilities for doctoral research in India. Vidyanidhi is envisioned to evolve as a national repository and a consortium for e-theses through participation and partnership with universities, academic institutions and other stakeholders. Vidyanidhi enhances access to Indian theses and enlarges the reach and audience for Indian doctoral research works.

e-Thesis is a database of doctoral theses submitted by CSIR fellows. It is the only one central authoritative source for information about CSIR doctoral dissertations. The potential users of this database include doctoral candidates who would like to make sure that their proposed thesis topics have not already been written about. Students, faculty and other researchers may search it for titles related to their scholarly interests.

The database represents the work of authors from over 250 national laboratories, universities and research institutes in India.

001 - The Story of Ruru Deer / रुरु मूग

रुरु एक मूग था। सोने के रंग में ठला उसका सुंदर सजीला बदन; माणिक, तीलम और पक्षे की कांति की चित्रांकना से शोभायमान था। मखमल से मुलायम उसके रेशमी बाल, आसमानी आँखें तथा तराशी स्फटिक-से उसके खुर और सींग सहज ही किसी का मन मोह लेने वाले थे। तभी तो जब भी वह बन में चौकियाँ भरता तो उसे देखने वाला हर कोई आह भर उठता।

जानिये कि रुरु एक साधारण मूग नहीं था। उसकी अप्रतिम सुंदरता उसकी विशेषता थी। लेकिन उससे भी बड़ी उसकी विशेषता यह थी कि वह वियंकशील था; और मनुष्य की तरह वात-चीत करने में भी समर्थ था। पूर्वजन्म के संस्कार से उसे जाना था कि मनुष्य स्वभावत: एक लोभी प्राणी है और लोभ-वश वह मानवीय करणा का भी प्रतिकार करता
Received **GOLDEN ICON: Award** for Exemplary Implementation for e-Governance Initiatives under category Best Documented Knowledge and case study by the Department of Administrative Reforms and Public Grievances, Government of India.

Conclusion

• We have seen many initiatives from India
• Many are in Pipeline
• However we need create an awareness about true “soul” of Open Access – Knowledge grows by sharing.
